Principal Message

Dear Wolves,

Eastlake High School works to embed our Mission and Values into the fabric of our school through a focus on five goals.

Eastlake Common Goals

- Support students through a positive, personalized and inspiring culture
- Engage and challenge students through well-designed instruction
- Support students in their development of character and citizenship
- Provide students the time and support to meet our high expectations
- Provide students with the knowledge and skills to make thoughtful decisions in high school and beyond

Previously I explained our efforts to engage and challenge students in well-designed instruction. Through our High School and Beyond Plan, we provide a lot of guidance and resources that help students become future ready. In Grade 9, students become more self-aware through personality, learning style and interest inventories. Throughout high school they then have an opportunity to update this information and use it in their college or career exploration.

We use a program called Career Cruising to support this work. Your student can give you access to Career Cruising so that you can also help guide them in this process.

Next week, students will complete the college selector tool, which will provide them with more direction as they tour our annual college fair on Thursday, October 26. This opportunity includes not only colleges, but other post-secondary opportunities such as technical schools and the military.

We hope all of this helps students make thoughtful decisions as they choose classes, and begin to determine their future ambitions. This also provides Eastlake staff with valuable information that we can utilize to determine college visits, career speakers, and even course offerings here at Eastlake.
