Eastlake Credo: At Eastlake, through intentional actions, we create an environment where students and staff feel safe, appreciated and loved. This is Eastlake. This is home.
This is family. **WSPS.**

Dear Wolves,

Eastlake High School works to embed our Mission and Values into the fabric of our school through a focus on five goals.

Eastlake Common Goals

- Support students through a positive, personalized and inspiring culture.
- Engage and challenge students through effective instruction.
- Support students in their development of character and citizenship.
- Provide students the time and support to meet our high-expectations.
- Provide students with the knowledge and skills for success in High School and Beyond.

Previously I explained our efforts to engage and challenge students through effective instruction. Another central goal focuses on creating a positive, personalized and inspiring culture both inside and outside the classroom. In addition to the efforts of our leadership students, our coaches remain committed to providing an incredible experience for students in the pool, on the course or between the lines on the court. Our club advisors also commit themselves to providing an amazing experience for students, allowing them to learn while pursuing their passions. These activities also educate, teaching life lessons about effort, teamwork and perseverance, important concepts in our Eastlake Values.

Teachers also make an intentional effort to create a positive, personalized and inspiring culture. We work as a staff to consistently show up with a positive and enthusiastic demeanor. We implement consistent strategies for developing quality student relationships that allows us to push students to learn and grow and support them in the process. We also help students believe in themselves, where students understand that intelligence is fluid not fixed, where they believe that with practice and perseverance they can learn to draw or be good at math.

Teachers also understand that quality relationships improve student learning. That's why they stand at their doors to welcome students prior to class. That's why they smile, ask students questions about their lives and honestly listen to the answers. That's why they use names when they call on students in class.

It's all the little things that allow big things to happen. That's how we try to make every student feel like school is just an extension of home.

Fire Alarm & PSAT

During the surprise fire alarm that occurred while the PSAT exam was being administered, teachers secured exams, students exited and re-entered smoothly, the College Board standards were followed, and the time was adjusted to assure all students received the appropriate time. Because this is something that happens in schools nationwide, the College Board has specific guidelines in place and a specific procedure to document the alarm and related disturbances. Those protocols were followed, and testing resumed smoothly. The same thing happened during AP testing a few years ago and the same procedures were followed then. It has been handled with all due diligence and care.
