Results from Smarter Balanced Assessments Available Online June 21

Each spring, Washington public school students in grades 3-8 and high school are tested in English language arts (ELA) and math, with exams called Smarter Balanced Assessments (SBA). Students in grades 5, 8, and high school are also tested in science, with an exam called the Washington Comprehensive Assessment of Science (WCAS).

Individual scores for the SBA exams administered this past spring for ELA and math, are being delivered electronically from the Office of Superintendent of Public Instruction (OSPI). OSPI allows the District to share these score reports electronically in PDF format. Downloadable score reports will be added in Skyward Family Access on June 21. In an effort to use resources effectively, paper reports will only be available by request in the fall.

Only SBA ELA and math scores will be available in June. Science scores will not be available until the fall after OSPI releases those scores.
